

Capabilities Assessment

OPPORTUNITY

F-35 lot-19 sustainment: build-to-print spares support with 91% capability fit.
Matched to BTX 5-axis capacity and AS9100 line.

CAPABILITY FIT

91%

Core capabilities

5-axis CNC machining

Complex geometries, single-setup

Build-to-print

From customer models and specs

Precision turning

Swiss + multi-axis, +/-0.0002 in

Assembly & kitting

Sub-assembly, integration, kitting

CMM metrology

Full first-article + in-process

Special processes

Coordinated NDT, finishing, coatings

Certifications & compliance

AS9100D

ITAR Registered

NIST SP 800-171

CMMC Level 2

DFARS 252.204

Nadcap (NDT)

Current production capacity

Facility	5-axis centers	Shifts	Utilization	Available
Fort Worth, TX	3	2	93%	limited
Tulsa, OK	11	2	74%	Now

Materials & tolerances

Titanium, Inconel & nickel alloys
Aluminum, stainless & specialty steels
Tolerances to +/-0.0002 in
Part envelope to 40 in, 5-axis

Track record

20+ yrs supplying tier-1 aerospace primes
99.2% on-time delivery
<15 PPM quality escape rate
100% ITAR-compliant data handling
