

TO Jordan Rivera, Supply Chain Director, Lockheed Martin

FROM VP Sales, BTX Precision Machining

SUBJECT 5-axis capacity for F-35 lot-19 build-to-print spares

Hi Jordan,

Congratulations on the F-35 lot-19 sustainment award. BTX has open 5-axis capacity right now.

Best regards,

Alex Chen

Would you be open to a short call next week to compare your current spares needs against where BTX can take load off the schedule?

Alex Chen

VP Sales, BTX Precision Machining
