

Three moves in the defense-machining market, and what each means for BTX pipeline.

01 F-35 lot-19 sustainment award lands at Lockheed

TELL ME

Lockheed booked the F-35 lot-19 sustainment award; spares demand steps up through FY27.

SHOW ME

\$2.4B

award value, multi-year

SO WHAT

Build-to-print spares are squarely in our 5-axis, AS9100 lane. Priority outreach opened; 91% fit.

02 Spirit AeroSystems signals a structures schedule slip

TELL ME

Spirit flagged schedule pressure on structures; two programs need a domestic AS9100 machining partner.

SHOW ME

2 programs

seeking re-shore capacity

SO WHAT

A qualification lane for us. BD to scope fit and confirm certifications this month.

03 DoD FY27 budget lifts precision-component demand

TELL ME

The FY27 request increases funding lines tied to precision aerospace components and sustainment.

SHOW ME

+8%

YoY in relevant lines

SO WHAT

Sector tailwind for the whole target list. Portfolio-level signal; not tied to one account.
